

LAT Resource Kit

The LAT Resource Kit supplements the LAT manual and contains everything needed to study for the LAT Certification exam. The shorter, more concise reference list allows all study material to be incorporated into one neat package. No more tracking down copies of publications recommended for study!

Included in the packet are:

- Public Health Service Policy on Humane Care and Use of Laboratory Animals
- Good Laboratory Practices for Non-clinical Laboratory Studies (FDA and EPA)
- 2000 Report of the AVMA Panel on Euthanasia
- *Clinical Laboratory Animal Medicine*
- Technician Certification Handbook

Also, you will receive \$10 off the purchase of an LAT manual whenever you order this kit!

Order online at www.aalas.org, click on the **Bookstore** link.
